

You See a Sheep

Floating objects surround you. You wonder if you too are floating in space, or perhaps in water. Gravity, the horizon, and the edges of the room disappear. You are happy.

You See a Sheep is a lighting collection that uses hand-built ceramic shells to house the light source and steel suspension cable to make them appear to be floating in space. A mysterious warm glow is revealed through the holes against the interior's dry paper-like surface.

Single, double and multiple shells can be installed with single ceramic canopy housing wire connections. Larger compositions with multiple shells can be designed specific to an installation site.

Dimensions & weight

Shell: 12-17 w in. / 30-43 w cm; 4-6 lbs / 1.8-2.8 kg each (the following page lists individual dimensions)
Adjustable drop length with custom cable lengths
5 in. / 12.5 cm dia. canopy to house wiring

Materials

Shells, socket covers, canopies and finials in hand-built ceramic in a matte finish, brass cable grippers, steel suspension cable, off-white nylon covered cord, and electrical components

Light source

1 x E-26 medium base per shell

Production

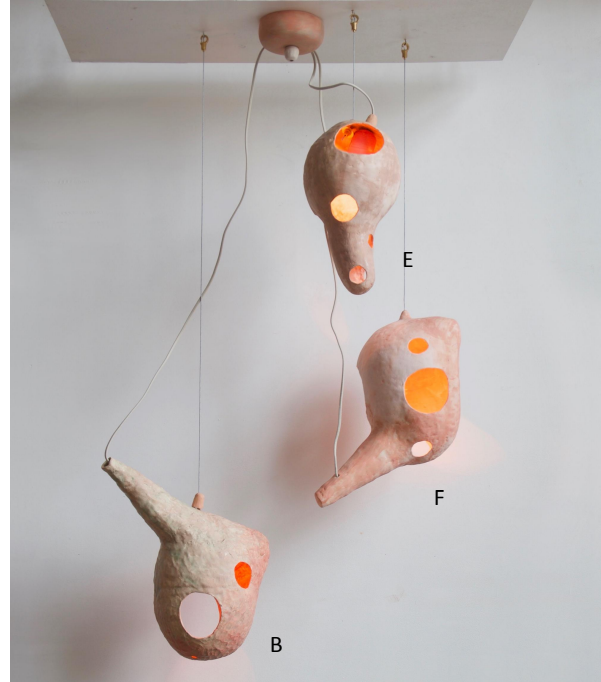

Pendant lamp: made to order with a 6-8 week lead time
Multi-shell chandelier: 8-16 week lead time depends on quantity

Additional info

Each lamp is individually hand-built without using a mold to create an enjoyable uniqueness and spatial balance within each form. Variations in dimensions, forms, and finishes are expected.
